

JOHN DORAN

John L. Doran, Global Director, Trade Monitoring & Surveillance with ConocoPhillips, brings more than 20 years of experience providing advisory services and analytical modeling methods to his clients in the energy industry. Mr. Doran is the designer of multiple commodity trade surveillance methods used to detect targeted trading patterns. He has worked with integrated oil companies, investment banks, hedge funds and Department of Justice sponsored monitors providing customized trade surveillance solutions and independent reviews. Prior to joining ConocoPhillips, Mr. Doran spent a significant part of his career with Ernst & Young and SunGard Global Services focusing within the energy industry. John graduated from Texas A&M University with a Bachelor of Science degree in Electrical Engineering.
